

Chemical/Lab Technologist

Be part of a team that is tackling one of the largest challenges of our generation. As an Inventys employee, you will apply your talents in ways that make a difference in our world by directly contributing toward technologies to reduce greenhouse gas emissions.

Inventys is a clean energy technology company with a credible solution for capturing point-source CO₂ emissions and accelerating the global transition to a lower-carbon economy.

We are looking for a Chemical Technologist to conduct evaluations and lab tests, prepare reports, provide support in the lab and participate in various related tasks.

Key Responsibilities:

- Conducts product performance evaluations, defining chemical and physical attributes of adsorbent products.
- Generates detailed laboratory reports summarizing research and development efforts.
- Provides technical support of the lab instruments, ordering required gas cylinders
- Participates in adsorbent synthesis, filtration, and collection of the product.

Qualifications:

- Experience: At least 2 years' experience with industry accepted analytical testing methods and equipment. Working Experience in material synthesis lab is preferred.
- Education: Degree or Diploma in Chemistry or a related field
- Technical: Adept in MS Office, Excel and Word
- Other: Familiarity with Analytical instruments (such as TGA, FT-IR) is preferred
- Critical thinking skills and good judgment
- Adaptable to change
- Demonstrated interpersonal skills in establishing cooperative working relationships both internally and externally
- Demonstrated written and oral communication skills in-person and over the phone
- Ability to work independently and as part of a team
- High level of initiative
- Good time management, with ability to organize, prioritize and meet deadlines
- Strong attention to detail
- Ability to handle stress
- Ability to lift around 50 pounds and handle physically demanding work

As a team member you will work in a safety-first environment while enjoying competitive benefits, supportive co-workers, and interesting challenges to solve. You will grow through

challenging work with diverse, talented people and by finding endless opportunities to learn and engage.
